2. Revises Form No. 290, "Individual Payroll Data Card" [] 25X1
Working with the Office of the Comptroller we have been able to reduce the size of this form from 11 3/4" X 6 1/4" to a standard 8" X 5". The revised form will be printed on one side only. This will result in more economical way of printing the form in the future and reduce the space utilized for its filing by the Payroll Branch.
3. Developes Revision of "Adjustment Voucher," Form No. 128 [] 25X1
Revision of this form, which makes obsolete its 1 April 1956 edition, has just been completed for the Technical Accounting Staff, Office of Comptroller. Since this form has been and will continue to be stocked, the Supply Division, Office of Logistics has been requested to submit a requisition for the newly revised format through this office to the Printing Services Division. 25X1
4. Proofs Received from the Printer of "Case File Request," Form No. 812 [] 25X1
These proofs, which tie-in with the 1 December 1956 edition of this form, have just been coordinated and cleared with the Office of Primary Interest and returned to the printer. This form, previously printed as a two part NCR form. Because it has been in short supply and has current significance with respect to the present East Crisis on intermediate Requisition for 5,000 forms of the preceding edition has been approved pending the receipt of the NCR edition. MIDDLE
5. Completes Training Courses - [] completed on Friday of last week the four weeks part-time Writing Workshop Course conducted by the Office of Training. 25X1

RECORDS DISPOSITION BRANCH

Project 6-40 - Office of Central Reference []

25X1

1
25X1 With the help of [] of the Records Center and [] JOT, we are assisting the Acquisition Branch, Library Division, to retire or destroy their inactive records in accordance with a tentative schedule approved by them. To date, we have transferred 638 cubic feet of records to the Records Center and destroyed 158 cubic feet on the spot. Of the material retired, over 400 cubic feet are captured Japanese documents which must be retained for an indefinite period pending diplomatic negotiations for the return of all captured Japanese documents to Japan. Another 100 cubic feet of this material is unprocessed foreign language publications that may be recalled piecemeal for processing. Only 20 cubic feet warrant permanent retention and the remainder will probably be destroyed within three years. The project is continuing and possibly another 100 cubic feet may be either retired or destroyed. Project is 62% complete.

Project 6-70 - Cable Secretariat []

25X1

1 The Cable Secretaries' comments on the proposed schedule were discussed with [] and differences resolved. Final copy of the schedule is now being typed. Project is 80% complete.

Project 6-81 - Office of Logistics []

25X1

Review of each individual item of the schedule has been completed and our comments prepared where appropriate. Meetings will be held with the ARO to discuss these comments. Project is 60% complete.

General Information

1 [] assisting Medical Staff in the retirement of separated employees' medical files. Through coordination with the Office of Personnel a roster of on-duty personnel was furnished to the Medical Staff which resulted in pulling 21 cubic feet of files for transfer to the Records Center. It was found, however, that some of the charts being prepared for transfer were for personnel now serving overseas. Therefore, further coordination with the Office of Personnel was required. As a result, another list was furnished by Personnel and at present the charts on overseas personnel are being culled. It is anticipated that 19 cubic feet of records will be retired within the near future.

25X1 The Audit Staff records Control schedule is being reviewed and where necessary, will be revised. Project sheet is being prepared.

[] is attending the course in Conference Leadership.

25X1 [] completed the course conducted by the Writing Workshop.
